

The following appointment types can now be booked **online**
via **Patient Access**

CDM1 Annual Review Appointments

If you have Hypertension/Stroke/Heart conditions such as Atrial Fibrillation, Heart Failure, CHD, Peripheral Vascular Disease or have COPD you will need an annual CDM1 appointment to have your bloods, blood pressure, weight and lifestyle questions checked.

Diabetic Annual Review Appointments

If you have Diabetes you will need a Diabetic Annual Review appointment to have your bloods, foot check, blood pressure, weight and lifestyle questions checked.

NHS Health Check Appointments

The check is for people who are aged 40 to 74 who do **not** have any of the following pre-existing conditions. It's designed to spot early signs of stroke, kidney disease, heart disease, type 2 diabetes or dementia. You may have an NHS Health Check **every 5 years**.

Heart disease	Transient ischaemic attack
Chronic kidney disease	Inherited high cholesterol
Diabetes	Heart Failure
Stroke	Peripheral Artery Disease
Atrial fibrillation	High blood pressure (hypertension)

You should already have regular check-ups if you have one of these conditions. We can give you more information about this if you are unsure.

For **all other appointments**, please continue to contact us by telephone, *AskMyGP* or in person at the reception desk. Please note GP appointments **cannot** be booked via Patient Access at this time.
